## Why Angel Represents OrbRom Quality

Angel brings a strong clinical foundation combined with adaptability across diverse clinical environments, including public healthcare, rehabilitation hospitals, and private practice.

Her ability to manage both pediatric and adult caseloads reflects versatility and clinical maturity, while her structured, evidence-based approach ensures consistent and measurable outcomes.

With international licensing and a commitment to continuous professional development, Angel aligns with OrbRom's standards of delivering accessible, high-quality, and ethical therapy services across different populations.

## Core Strengths

- Compassionate and patient-centered approach
- Strong clinical documentation and case management skills

Angel Shikwane is a dedicated speech-language pathologist with experience across hospital, community, and private practice settings. Her clinical work spans communication and swallowing disorders in both children and adults, with a strong emphasis on functional outcomes and individualized care.

Her commitment to evidence-based practice, combined with her ability to work in multidisciplinary teams, supports effective intervention planning and long-term patient progress.
