## Why Saona Represents OrbRom Quality

Saona brings a strong foundation in pediatric occupational therapy supported by structured clinical training and hands-on experience in both clinical and community environments. Her exposure to a wide range of developmental and neurological conditions allows her to approach each child with flexibility and clinical insight.

Her use of evidence-based frameworks and standardized assessments ensures that interventions are purposeful, measurable, and aligned with functional outcomes. Saona also demonstrates strong collaboration skills, working effectively within multidisciplinary teams to provide integrated and holistic care.

Saona M Siddiq is a dedicated occupational therapist with experience across pediatric intervention centers, hospitals, and community settings. Her clinical work focuses on improving functional independence, sensory processing, and developmental outcomes in children with diverse needs.

## Core Strengths

- Compassionate and child-centered approach
