## Why Senuri Represents OrbRom Quality

Senuri combines a strong academic foundation with practical experience across hospitals, schools, and community environments. Her First-Class Honours degree reflects high clinical competence, while her ongoing studies in psychology and special education demonstrate a commitment to continuous professional growth. She applies evidence-based practices and adapts her approach to meet individual client needs, ensuring effective and inclusive intervention. Her ability to work across diverse settings aligns with OrbRom's standard of delivering integrated and client-centered services.

---

## Core Strengths

Compassionate, empathetic, and committed to client-centered care  
Strong adaptability across clinical, educational, and multicultural environments  
Effective collaboration with families, educators, and multidisciplinary teams

Senuri Amarasinghe is a motivated speech and language pathologist whose diverse clinical and educational experience supports a holistic and individualized approach to therapy. Her commitment to evidence-based intervention, inclusive practices, and professional excellence reflects the standards and values upheld by OrbRom.
